SKILLS

Frontend: ReactJS, Next.js, Typescript, React-Query, Redux, Angular, HTML/CSS, Tailwind, jQuery, Jest

Backend: NodeJS, Express, MySQL, Prisma, MongoDB

Tools: Git, Figma, Storybook, Version Control, Swagger, Docusaurus, Cypress, Sequel Ace

Other: Knowledge of WCAG, Cross-browser compatibility, RESTful API, Responsive Design, Automated Testing

PROFESSIONAL EXPERIENCE

Anna Freud

2024 – Present

Web Developer

- Develop POD, an online outcomes data collection tool for mental health providers (e.g., NHS Trusts)
- Create reusable custom hooks and UI components with TypeScript based on Figma designs
- Gather feedback from users and stakeholders to refine MVP functionality, while implementing core features from scratch to meet project goals
- Leverage Highcharts' modular components to build customizable and interactive bar charts, enhancing data visualisation and integration with dynamic dataset
- Collaborate with backend developers to define APIs and data requirements, while also contributing to both frontend and backend tickets, ensuring cohesive product development
- Tech Stack: NextJS, TypeScript, Tamaqui, HighCharts, Prisma, MySQL, PHP

Sapp

2022 – 2024

Junior Front-end Developer

- Refactored and updated legacy codebases, transitioning from JavaScript to TypeScript, which improved code quality and maintainability
- Debugged and resolved application issues, enhancing UI/UX and user satisfaction
- Translated designs into web templates with precisions, documented with tools such as Storybook, increasing team productivity
- Ensured web application reliability with automated tests using tools like Cypress
- Collaborated with senior developers to implement accessibility standards, improving app inclusivity
- Tech Stack: ReactJS, React-Query, Styled Components, Express, Docker, Storybook, Cypress

Blurton Family Development Center

2018 – 2021

Psychometrician

- Served as a mentor to junior team members
- Provided assessment services to students from socially, culturally, & linguistically diverse backgrounds
- Interpreted assessment data and prepared psycho-educational reports
- Built and maintained positive relationships with challenging or emotionally distressed clients

EDUCATION

Codework

London, UK

Software Engineering Immersive Course

2022

University of California, Berkeley

California, USA

Bachelor of Arts in Psychology, with highest distinction (GPA: 3.96/4.0)

2013 – 2015

RELEVANT VOLUNTEER EXPERIENCE

Connecting Myanmar, Software Developer

2024 – Present

LANGUAGES
